[Background and proposals](#)

[Solicitor apprenticeships](https://indemnity.sra.org.uk/become-solicitor/sqe/solicitor-apprenticeships/) [<https://indemnity.sra.org.uk/become-solicitor/sqe/solicitor-apprenticeships/>] were introduced in 2015 and since then the style of the standard has changed.

We have worked with the Institute for Apprenticeships and Technical Education and the Solicitor Apprenticeship Trailblazer Group to update the standard.

Our proposals

We are proposing to update the [solicitor apprenticeship standard](https://indemnity.sra.org.uk/globalassets/documents/consumer-reports/draft-solicitor-apprenticeship-standard-pdf-8-pages-306kb.pdf) [<https://indemnity.sra.org.uk/globalassets/documents/consumer-reports/draft-solicitor-apprenticeship-standard-pdf-8-pages-306kb.pdf>].

The substance of the draft standard has not changed, only its presentation. Similarly, the assessment plan has not changed and apprentices will still have to pass SQE1 and SQE2 to qualify.

[Consultation questions in full](#)

We are keen to hear your views on our proposed changes outlined in this consultation. Please answer these two questions:

Question 1

Does the draft standard accurately summarise for apprentices the work of a solicitor?

Question 2

Does the draft standard accurately capture the knowledge, skills and behaviours an apprentice should demonstrate before they are admitted as a solicitor?
